

Vino, Come In My Heart

Come in my heart
Before I waste it
So come inside
There I was standing at the door that`s closed
There I was waiting for you let me come in
Another day and another matters, damn...
I need a shower so could ease the pain
So come inside
Before I waste it
We used to live in circles playing dumb
And Sharing our days with such peaceful nights
Then tell me why you turn your head from me
I`m loosing my voice but I keep on screaming please...
So come in my heart ...
Before I waste it
So come inside
Before I waste it
So come in my heart ...
Before I waste it
So come inside
So come in my heart ...
Before I waste it
So come in my heart ...
Before I waste it
So come inside
Before I waste it
So come inside
Before I waste it
