

# Vinx, Squeeze You

Every time you touch me,  
I get lost in your world  
Hoping you might find me  
and beg me to stay

But it's the last time I'm ever gonna say it to you  
although you've heard it before  
Still it's the last time I'm ever gonna say it to you  
and it's something that you should know

Try and understand  
My lust for life  
Don't let me mislead you  
I'm wild and free

But it's the last time I'm ever gonna say it to you  
although you've heard it before  
Still it's the last time I'm ever gonna say it to you

You're killing me  
oh tell me why I...

I wanna hold you, squeeze ya  
tell you that I care

Even though I'm a liar  
I wanna hold you, squeeze ya  
Wrap my lips around you  
and never let you go
