

Vinx, Squeeze You

Every time you touch me,
I get lost in your world
Hoping you might find me
and beg me to stay

But it's the last time I'm ever gonna say it to you
although you've heard it before
Still it's the last time I'm ever gonna say it to you
and it's something that you should know

Try and understand
My lust for life
Don't let me mislead you
I'm wild and free

But it's the last time I'm ever gonna say it to you
although you've heard it before
Still it's the last time I'm ever gonna say it to you

You're killing me
oh tell me why I...

I wanna hold you, squeeze ya
tell you that I care

Even though I'm a liar
I wanna hold you, squeeze ya
Wrap my lips around you
and never let you go
