

Violent Femmes, All I Want

All I want is to talk to you
All I want is to talk to you
Im aching for your touch
Im breaking because I miss you so much
Do you miss me too?
All I want is to walk with you
All I want is to walk with you
Im hoping for your kiss
Im doping because I miss
you so much
Do you miss me too?
A little bit closer
A little bit closer
Someday
When I try to get closer
Then you move away.
All I want to say is
All I want is to be with you
All I want is to be with you
Youre hurting deep inside
Youre flirting cause you need
To feel that you are still alive
A little bit closer
A little bit closer
Some way
When I try to get closer
Then you move away
All I want to say is
All I want is to walk with you
All I want is to talk to you
Im praying for one night
Im laying so low
Because I love you so
Though I know it aint right
