

# Violent Work Of Art, Funny Farm

Come on in let's all go insane now, Can't you see it's all in my brain now?

I am the one, I am the son of god.

Forgive me please won't you mother, I'm not like them, like the others.

Why can't you see?, there's nothing wrong with me.

In the funny farm, all you are, all you are just slowly fades away.

Just like me.

Poor child, innocent mother, I can't believe he was my father.

That piece of shit, deserved all that he got.

He had to meet his maker, the holy one, the undertaker.

Why can't you see?, there's nothing wrong with me.

In the funny farm, all you are, all you are just slowly fades away.

Just like me.

Human error.

All I am is dead

Fatal error.

There's nothing in me.

Human error.

Something with my head.

Fatal error.

Nothing left.

Come on in let's all go insane now, Can't you see it's all in my brain now?

I am the one, I am the son of god.

[ repeat twice ]

Human error.

All I am is dead

Fatal error.

There's nothing in me.

Human error.

Something with my head.

Fatal error.

Nothing left.

I have to break myself in two, to figure out just what to do, I am the one, I am the son of god.

The pieces left of me are few, They turned me into something new, something I hate

There's nothing wrong with me.
