

Violet Indiana, You

You came to save me
I feel so in love with you
'Cos you came to be with me

The sunshine is in you
You take away my pain
The sunshine it fills you
I loved you

Blue boy it's all for you
Tell me and i'll tell you too
Trusting me like I put my trust in you
The secret inside: me loving you

The sunshine is in you
You take away my pain
The sunshine it fills you
I loved you

You came to change me
I feel free

You came to change me
I feel free

When i'm down I lose myself
Lie inside this safe soul
When you're around
I lose myself
I lose control
When you're around
I feel I found a place that I have completed me
What I found is when you're around, I feel...
What I found I feel around used to be me and you...
