

# Viper, At Least A Chance

Four billion faces  
Are searching for their dreams  
Fighting for a better way  
Despite how hard it seems

Oh! Do you remember  
Those words from long ago  
That inspired us to progress  
To make our future grow

Life goes on  
It's brutal lessons  
We must accept  
Even through the tears

Maybe someday  
A hopeful light  
Will lead all the people  
To live better lives

It will be  
Like childhood dreams  
Like cries in the silence  
But I'll have at least a chance

Street filled with tears  
Are the picture of my life  
I've got someone to forget  
Somethings that I can't hide

The rain is so cold  
It cuts me like the past  
And the scar deep inside of me  
How long will they last?

Life goes on  
It's brutal lessons  
We must accept  
Even through the tears

Maybe someday  
A hopeful light  
Will lead all the people  
To live better lives

It will be  
Like childhood dreams  
Like cries in the silence  
But I'll have at least a chance
