

# Viper, Dead Light

Looking for a smile inside this place  
Walking through the rooms  
Makes the time go away

Every time is madness time  
You close your door to me  
Screaming in the night is the music here

I'll go on looking for the dreams  
'Cause I never found you inside of me

I watch the sunrise behind your eyes  
See the future don't pray tonight  
Don't you ever cry please get me out of here  
I'll never find the answer for you and me

I'll go looking for the screams  
And I'll never find you inside of me

Running for the day, bleeding in the night  
Nightmare fills the dreams and I'm hungry for life  
Love is insanity, impossible to find  
And going on means going far into the dead light

Waiting for a light in the sky  
Colors and reality  
Are black and white

Give me back the things I had  
And leave me alone  
Some day we'll meet again after my dawn

I met you in the dark  
I brought you to the light  
Now there's a dead light  
Burning deep inside of you and me
