

Viper, Love Is All

We came to this world breaking the silence
Crying for the first air we breath
Thats how life begins

Since were born our destinys decided
By thousand ways of hating
That humankind creates to divide us all

But theres only one word
Stronger than God
Strong enough to save us
Save me

Love is all that I need
To be strong to be free

Different creeds, boundaries
And ethnics
Differences that should enrich us all
But oh, Humanity!

They took it wrong and now we are watching
Growing racism but we keep living our lives
Like its not our fault

But theres only one word
Stronger than God
Strong enough to save us
Save me

Love is all that I need
To be strong to be free

All the world is now asking why
We close our eyes to the greed of mankind
Ruining all our lives

But theres only one word
Stronger than God
Strong enough to save us
Save me

Love is all that I need
To be strong to be free
