Virgin Steele, Last Rose Of Summer

[Music & amp; lyrics: De Feis]

There like an angel A vision of light The last rose of Summer The last Rose of Summer Bloomed in my sight

Alone with the wind And the sun in her hair I've never seen anything so fair

And you're all I need All I need...

Our love will never die I walk with you, Last Rose of Summer's day Make love to me

Wake with the sunrise When dreams walk the sky She whispers, "I love you" Then sings, laughs and cries

A song of emotion Borne of angel wings Free as the seasons Where love eternal springs

And you're all I need All I need...

Our love will never die I walk with you, Last Rose of Summer's day Make love to me

...Sweet love Don't cry no more I'm with you babe...
