

# Virginia Coalition, Moon In The Morning

Crazy, it's all that you want  
Crazy, it's all that you're askin' for  
It's like the man who tries to stand without the reservation  
And he dont bear the name that he's been given

Crazy, it's all that I want  
Crazy, it's all that I'm askin' for  
It's like the song that goes too long  
But it's stirring up the nation  
I can dig a bigger hole for us to live in

Roll out, boy, this is gonna take a while  
The length of your smile  
Draws a little light and it breathes  
Sometimes it comes without warning  
Like the moon in the morning  
It's just one of those things

Sorry that it's all gotta change  
It's just another one of your simple reasons  
It's like the time that you lost your mind  
Without thinking about the complications  
And I dont think you'll ever be forgiven

Roll out, boy, this is gonna take a while  
The length of your smile  
Draws a little light and it breathes  
Sometimes it comes without warning  
Like the moon in the morning  
It's just one of those things

And I think you're wearing it backwards  
And I think you got it all wrong  
You can change your mind if you have to  
You can change your mind

Roll out, boy, this is gonna take a while  
The length of your smile  
Draws a little light and it breathes  
Sometimes it comes without warning  
Like the moon in the morning  
It's just one of those things

Roll out, boy, this is gonna take a while  
The length of your smile  
Draws a little light and it breathes  
Sometimes it comes without warning  
Like the moon in the morning  
It's just one of those things  
Just one of those things  
Just one of those things

And I think you're wearing it backwards  
And I think you got it all wrong
