

# Virginia Coalition, Pick Your Poison

Tossin' and Turnin'  
Can't sleep to save your life  
Try and close your eyes  
Coexisting  
spinning circles in your mind  
All in good time

Pick your poison  
Make a choice and settle in  
It's ripe and on the vine  
A little whine seems  
A light year inside  
Our lives are on the line

The tank is empty  
Fill it up or drive on home  
There's miles or more to float  
It's half your battle  
A miracle coincidence  
Walking arm in arm

Pick your poison  
Make a choice and settle in  
It's ripe and on the vine  
A little whine seems  
A light year inside  
Our lives are on the line

Every answer  
That you learn  
That you earn  
Every poison  
Has its cure

Changing the channel  
Waking up your fever breaks  
The call of your alarm  
Learn to love it  
Or rise above what isn't right  
Your life is on the line

Pick your poison  
Make a choice and settle in  
It's ripe and on the vine  
A little whine seems  
A light year inside  
Our lives are on the line

Pick your poison  
Make a choice and settle in  
It's ripe and on the vine  
A little whine seems  
A light year inside  
Our lives are on the line
