

Virtue, Only God's In This

Verse1:

I called up Karima, Heather and told em' that
Lately I,ve been feelin' that
We need a little somethin' we can grove to
You know somethin' with some bump that don't offend you
Cause I hear what it is that they're playin'
But I don't really like what they're sayin'
But I think we can give em' what they need
Wanna take a chance join me

Chorus:

We wanna give you somethin' to make ya dance
Maybe make you wanna clap your hands
Make you wanna catch a circumstance
But first you gotta understand
This ain't bout' relationship
Not the kinda party party that be poppin' cris
All that bling bling just leave where it is
Only God's in this

Verse2:

Now we gon take you to another place
Where it's all good if your stayin' late
But if you wanna get inside you gotta give some praise
Gotcha guaranteed you never felt this way
Got you lookin' foward to every Sabbath day
Still spreadin' the word on Thursday
Don't it make you wanna go on

Chorus

Bridge:

Said it feels good to my soul
Just like a fire that won't go cold
Oh and it'll give joy unspeakable
Makes life more meaningful
If your curious bout' what I say
Then just walk this way

Chorus
