

Virus, Until We Win

We are the punks and you are the bastards
Try and hold us down, we'll just go faster
Keep up the pace and never give in
Cause we'll keep on fighting until we win!

We are the future we are the youth!
We get condemned for telling the truth!

With one common goal we stand and we strive!
To keep our own ideals and to keep punk alive
Keep your own ideas and never give in
Cause we'll keep on fighting UNTIL WE WIN!
