

# Visceral Bleeding, Spreader Of Disease (Burn The

Dreaded fuck face, grotesque  
Abomination, to our race disgusting  
Fraudulent, putrid hypocrite  
Calculating, sinister, corrupt  
Dishonest, devious, unclean  
Filthy two-faced liar  
Rancid whore, spreader of disease

The time is now, time to stop this sick infected whore  
Introduce her to reprisal, present the consequences  
Of her unclean, dirty, wicked living  
Limb by limb, I will deform her  
She will not twist another mind  
Not lure, deceit, infect, defile

Violent grab, pound her face into the dirt  
Mud soaked, hold her down by the hair  
She's fighting violent, no breath, panic  
Face turns blue, army boot face kick  
Numbs of, falling down, passing out  
Blood seeps slowly, pitiful moaning

Open hand face slap, she will not pass out  
Not escape the pain  
Her silent crying swiftly changes to screams of terror as I start  
My work of torture on her torso, breaking ribs and bruising white skin  
Broken bottle glass reflection shows her deformed face expression  
Nose, chin, lips severely damaged, skin and tissue mixed with her own

Blood, she'll bleed, drain the bitch  
Lying in a pool of her infected dirty blood she pleads for life  
Her cries for mercy only fuels my burning hatred, time to die  
Burn the fucking bitch, pain will now transform  
Change it's face, become more extreme, progress into death  
Pure vengeance will flow, broad of hate  
The urge that has grown strong, stimulate

In my eyes she's nothing but a repulsive vermin, source of illness  
Spreader of disease, burn the bitch  
Bring the flame to her body  
In convulsing spasm she burns  
Skin peeling off, the flesh exposed  
Boiling blood expands burst through vessels  
Suffer wrath of fire, you disgusting fucking liar
