

# Vision Divine, God Is Dead

I assume I'll disappear...

How dare you to drive me away?  
So you think you can live without me...  
I may not deserve your love...  
Alright then, you got it

Come to me, my faithful sons  
Angels, close the gates of Heaven  
Seal them "Seven Seven Seven"  
Let 'em get just what they want

Don't you call my name, I won't answer  
You won't find me right there by your side  
From now on you're just left on your own  
Take your freedom, now I'm done  
Don't look for my presence in Churches  
They're no longer my home anymore  
Just take your new life, and live on your own  
Yeah, here's the news for you... God is dead!

Ashes to ashes, dust to dust  
Like it was meant to be  
So you think you found the key  
And own all the answers

Come to me, my faithful sons  
Angels, close the gates of Heaven  
Seal them "seven seven seven"  
Let 'em get just what they want

Don't you call my name, I won't answer  
You won't find me right there by your side  
From now on you're just left on your own  
Take your freedom, now I'm done  
Don't look for my presence in Churches  
They're no longer my home anymore  
Just take your new life, and live on your own  
Yeah, here's the news for you... God is dead!

Don't you call my name, I won't answer

Take your freedom, now I'm done  
Don't look for my presence in Churches  
They're no longer my home anymore  
Just take your new life, and live on your own  
(On your own...)  
Yeah, here's the news for you... God is dead!  
Yeah!!!
