

Vision, Searching For Sluggo

Looking for a friend from years ago
He used to come with us to every show
Always had the time to hang with us
We knew he was someone we could trust

Where has he gone, where has he been
I just can't stop wondering

I would dive in the crowd, and he would pull me out
If the club wouldn't pay, he'd scream and shout
Making sure we were at the shows on time
If you came late, you were left behind

Where has he gone, where has he been
I just can't stop wondering

I'm looking for someone I used to know:I need to know
I'm looking for someone from long ago:I need to know
Where has he gone, where has he been
What has he done, I need to know
So I can find my piece of mind
I need to know so I can stop wondering
