

# Vision (UK), Lucifer's Friend

My eyes burn in the darkness  
Waiting outside your home  
A life that's truly immortal  
A lord of the unknown  
I only go out in the evening  
Never seeing the sun  
Draining the blood from my victims  
To give me the strength to go on

Vanishing just as the dawn comes  
In vaults below the ground  
Taking life from the humans  
A circle that goes round and round  
I'll never strike when expected  
I'm just a shadow at night  
My victims' eyes full of horror  
As they feel the terror and fright

My eyes burn in the darkness  
Waiting outside your home  
A life that's truly immortal  
A lord of the unknown  
I only go out in the evening  
Never seeing the sun  
Draining the blood from my victims  
To give me the strength to go on
