

Viva Voce, Daylight

Daylight,
Shines away
And the colors so bright,
Fade away

I'm overhead
With wings of white
Great things will come

With quick show of hands,
Let's see who understands

Daylight,
Wake me up
And the colors so fine,
That's enough

Some chase you back
With arms entwined
I'll take you on

With a quick show of hands,
Let's see who understands
Nevermind who expected it
Raise them high if you can

One, two, three, four!
