

Viva Voce, High Highs

Cut through the stone
Into the skin
You build it up
And I'm wearing thin

I dug the hole
To bury the ax
But you kept it sharp
'Cause you're not done yet

And I still wait for those high highs
Gonna wait for those high highs
Gonna wait for those high highs
Gonna wait for those
I still wait for those high highs
Gonna wait for those high highs
Gonna wait for those high highs
Gonna wait for those

Just take a drop
To see it's okay
Might last an hour
Or take all day

I squeezed the blood
Straight from the vein
Leads to my heart
So I'm fellin' pain

And I still wait for those high highs
Gonna wait for those high highs
Gonna wait for those high highs
Gonna wait for those
I still wait for those high highs
Gonna wait for those high highs
Gonna wait for those high highs
Gonna wait for those
