

# Voices Of Theory, Voices Of Theory

&quot;Say It&quot;  
You know that I want you baby  
You know that I need you  
And you know that I love you  
Just say it

Oooooooh, oooooh, oooooh, oooooh  
Am I giving enough  
Is this all that should be  
When water gets rough  
Will you still swim with me  
So afraid to come close  
It may be too soon  
It may be too much  
For you to consume

And I wanna know if I can live inside your world  
and I wanna know if I can give it to you girl  
You know that I want to say it  
You know that I need to say it  
You know that I love to say it  
Our love just go on and on and on  
You know that I want to say it  
You know that I need to say it  
You know that I love to say it  
My love just goes on and on and on

I gave you all that you need  
There's no better place you can be  
And I know that in time  
You will believe in me  
So please hold out your hand  
And let's exchange these golden bands  
Cuz I want you in my life  
I want you to be my wife

And I wanna know if I can live inside your world  
and I wanna know if I can give it to you girl  
You know that I want to say it  
You know that I need to say it  
You know that I love to say it  
Our love just go on and on and on  
You know that I want to say it  
You know that I need to say it  
You know that I love to say it  
My love just goes on and on and on and on

My girl, you're so special  
I want to give it all to you  
Loving you on and on  
My girl, you're so special  
I want to give it all to you  
Loving you on and on

You know that I want to say it  
You know that I need to say it  
You know that I love to say it  
Our love just go on and on and on  
You know that I want to say it  
You know that I need to say it  
You know that I love to say it  
My love just goes on and on and on  
You know that I want to say it  
You know that I need to say it

You know that I love to say it  
My love just goes on and on and on  
You know that I want to say it  
You know that I need to say it
