

# Voicst, Everyday I Work on the Road

We talk a little relationshit  
While listening in to 'Lover's spit'  
My thoughts go like... (toetoetoetoeto)  
And every time we avoid a kiss  
We're talking all but relationship  
And when you bring some common sense  
My eyes go like... (toetoetoetoeto)

Chorus:

Everyday I work on the road  
I pave it until it turns to gold  
And every day that I am away  
You say you miss me  
Every second I'm away, yeah, it hits me  
The giggles and the scent and the need make me dizzy  
Maybe one day we'll awake  
and it will fall into place

Verse:

So finally we talk common sense  
It doesn't work out, we'll act like friends  
We smile a little(toetoetoetoeto)

If you still mean it  
Have a sip  
On ending our  
Relationship

With every second that goes by  
Can you hear it?(toetoetoetoeto)

Chorus:

Everyday I work on the road  
I pave it until it turns to gold  
And every day that I am away  
You say you miss me  
Every second I'm away, yeah, it hits me  
The giggles and the scent and the need make me dizzy  
Maybe one day we'll awake  
and it will fall into place

Verse:

Now months have passed  
Another planet  
And instincts rise  
Just to forget it  
Still everyday it hits

So many nights  
Nothing to say  
I'm kept awake  
By girls with fake names  
Everything forward, no looking back  
I'll have another sip(toetoetoetoeto)

Ref:

Everyday I work on the road  
I pave it until it turns to gold  
And every day that I am away  
I know you miss me

Even when I seem to stay I'm not with you  
Right now I'm just an inch away:  
you can't get trough

Maybe one day we'll awake  
and it will fall into place

Ref:

Every second I'm away, yeah, it hits me  
The giggles and the scent and the need make me dizzy  
Maybe one day we'll awake  
and it will fall into place
