

Voivod, Black City

Riding, crashing, charging
Run to the wrong side in the night
Bastard, savage prowler
Whip the engine for more power
Fast winds, highway, hell song
Feel the fog in the black storm
Darkness, black walls, shadows
Can't see the light on the road
Alone in a haunted
concrete fondation
Abandoned and possessed
In a ghostly mansion
Desert, ghost town, bare land
Dark street, create a fear
Closed lamps, curfews
Dead leaves
The black cat awaits the witch
Don't stay in black city
Your soul will catch the spell
