

# Voivod, Rise

anark  
neuro-perfect  
lies sleeping in death  
nether darkness underground  
scared silence  
not a sound  
demok  
meta-control  
out goes the signal  
radiation from the sky  
activation  
second life  
now see the new light rise  
anark returns to earth  
out into the world  
restoration over all  
nether darkness as before  
now see the new light rise  
now see the new night rise  
must overcloud  
dark like before...
