

Volbeat, Always With U

eating flesh by time
The saddest news I have in mind
But I know you man
A heart like no one else
Keeps the fire glow friend
[Chorus:]
If I lose you, with the smile you do
If I lose you, in the morning
In the final sleep
If I lose you
Only one to know
And I promise you
Nothing change unless you say
But I know you man
A heart like no one else
Keeps the fire glow my friend
[Chorus]
Carry on cause there's no place to hide
Find the oath and feel
Our love for you is for all endless time
Alone you never be
[Chorus]
