Volbeat, Always Wu

Sickness hide inside eating flesh by time The saddest news I have in mind But I know you man A heart like no one else Keeps the fire glow my friend

(Chorus)
If I lose you, with the smile you do
If I lose you, in the morning
In the final sleep
If I lose you

Only one to know And I promise you Nothing change unless you say But I know you man A heart like no one else Keeps the fire glow my friend

(Chorus)

Carry on cause there's no place to hide Find the oath and feel Our love for you is for all endless time Alone you never be

(Chorus)
