

# Volbeat, Boa (JDM)

Wash over me like rain  
Can't get the hold on it  
Just stay for one more day  
But your eyes tell me you're afraid  
Let me proof that I can be  
In a life we both believe  
No timidity past  
Mark my words babe and take my hand  
Well for a moment all the words are spoken and I feel alone  
Ga ga ga, well I love you  
Are you falling are you healing, are breaking, leaving in a minute  
Well I hate you too  
Some words is to be said  
The taste of summer days  
Reminds me of a tale  
Freeze dried five hours of pain  
Drops from her eyes now bring the rain  
Let me proof that I can be  
In a life we both believe  
No timidity past  
Mark my words babe and take my hand  
Mark my words and just take my hand  
Are you falling are you healing, are breaking, leaving in a minute  
Well I hate you too  
Are you falling are you healing, are breaking, leaving in a minute  
Well I hate you too  
Some words is to be said
