

# Volbeat, Danny & Lucy (11 PM)

Little Lucy out to cruise  
On the road with pills and booze  
Only sixteen years of age  
She got her motherfucking life  
Destroyed that day  
Danny is twenty eight  
The motherfucker is doing drugs  
And just don't care  
Falling down the line  
Slowly losing grip of life  
[Chorus:]  
Dear mother, listen father  
Little sister, baby brother  
Read this letter  
'Cause I'm never coming home  
I'm out with Danny  
'Cause I'm tired of hearing  
All the broken words  
Of a better day  
I'm fine with Danny  
You broke your word  
Dear ms. and mrs. Ness  
I'm sorry to bring you this  
We believe we found your girl  
In an old burning car way up the hill  
[Chorus:]  
Dear mother, listen father  
Little sister, baby brother  
Read this letter  
'Cause I'm never coming home  
I'm out with Danny  
'Cause I'm tired of hearing  
All the broken words  
Of a better day  
I'm fine with Danny  
You broke your word
