

# Volxsturm, Skinhead Unity Crew

You've got a heart, heart full of pride,  
you are dancing all the night.  
You are the kings, kings of the streets,  
you live and die for this music.

I guess you'd say.  
What can make me feel this way?

Refr.

We are the real choosen few,  
boots and braces, pork pie too.  
We sing this song only for you  
the boys from the skinhead unity crew.

Out on the streets on a warm summer night,  
enjoyin' good life no cause to fight, this night.  
Hurry up and get up your ass,  
we'll keep that way just like in the past.
