

# Vomitory, Revelation Nausea

(Music: T Gustafsson)

(Lyrics: Dalegren)

Deceived, by the light, now I'm blind  
Descending, into the void, misguided souls

Worship, turned to lunacy, and wrath  
Killing spree, in the kingdom, of Christ

If you see the faces, the fear, the anger  
Turned into oppressive lies  
Ridden with disease, despise, and hatred  
Enter the realm of revelation nausea

To bear the cross, to tell the lies  
A rape of Christ, is your demise  
The purest soul, beyond the sky  
So kneel for me, or you'll die

Another carcass, on a cross, decomposing  
Rise above, to resurrect, I'm Christ

If you see the faces, the fear, the anger  
Turned into oppressive lies  
Ridden with disease, despite, and hatred  
Revelation nausea
