

# Vonda Shepard, I've Been Here Before

words by Gardner Cole

music by Gardner Cole & David Gamson

I've tried so many times  
To Keep romance alive  
I guess I never really had true love  
Then you came my way  
And nothing's been the same  
Now you're all I'm ever thinking of

If I had the say you'd be staying

(Chorus)

Hey...I've been here before  
Looking in your eyes see just a little more...I said  
Hey...I've been here before  
Someone must have sent you down to brighten up my life

One in a million boy  
You fill me up with joy  
Sometimes I don't believe in accidents  
I know we're meant to be  
It's so plain to see  
From here on out it where the fun begins

If I have the say you'll be staying

(Chorus)

Hey...I've been here before  
Looking in your eyes see just a little more...I say  
Hey...I've been here before  
Someone must have sent you down to brighten up my life

Sent you down to brighten up my life

(Bridge)

Sometimes the obvious is hard to see  
Now here you are standing right in front of me  
I could have missed my one and only  
Chance for love, chance for love...oh!

Hey...I've been here before  
Looking in your eyes see just a little more...I said  
Hey...I've been here before  
Someone must have sent you down to brighten up my

Sent you down to brighten up my life

(Chorus)
