

Vonda Shepard, Sail On By

Words & Music by Vonda Shepard

I've got a mind that you'll never see
I've got amazing remedies
I've got a heart that only wants to please
You wouldn't notice if I slapped you and I

Let go my friend
Telling you I, Let go my friend
You know I had to, let go my friend
Telling you I, let go my friend as you

Sail on by
No girl is an island
I live in denial as you
Sail on by
There's more behind this crying
Than meets the eye

I've got a hand on the radio
I've got a song on the video
I work my fingers to the bone
You wouldn't notice
If I were a slacker and I

Let go my friend
Telling you I, let go my friend
You know I had to, let go my friend
Telling you I, Let go my friend

Sail on by
No girl is an island
I live in denial as you
Sail on by
There's more behind this crying
Than meets the eye you

Repeat chorus
