

# Vonda Shepard, Say The Words

words & music by Vonda Shepard

Every light shines on you tonight  
Making a fool out of me  
Why won't this love leave me alone  
All of the people in this smoky room  
Crowded with faces I know  
I feel them watching me watch you

(Chorus)

Say the words  
Say the words  
Say the words  
Say the words so I can leave...it's over

Your eyes are deeper  
They are worthy of many words  
But none I can conjure up will do for you  
I shouldn't see you  
'Cause I know my own motivation  
It's taking too long for this love  
To leave me alone

(Chorus)

Say the words  
Say the words  
Say the words  
Say the words so I can leave...it's over

(Bridge)

Oh love, you worry me  
When you say you'll wait forever  
I have another life  
We just cannot be together

(Chorus)

Say the words  
Say the words  
Say the words  
Say the words, say them for me  
I need to hear you say...it's over  
Say the words  
Say the words  
Say the words so I can leave...it's over
