

Voyager (AU), Prince of Fire

Born to be better
To be better
To be better
To be better
To be better than us
Does it matter
Does it matter
Does it matter
Does it matter that it's all in the dust?

Down to the letter
And so I'm sorry to say
Think I'd better
Think I'd better take it out on the day

The voices come
The voices go
The voices know
Am I the prince of fire on the night patrol?
(Are we better?) The voice has come
(Voices settle) The voice has gone
(Into battle) Am I still the prince of fire on my own?

Sworn to kill now when we were all as one
Lay your sword down and we were all but done
Lay your sword down in my arms again (again)

Is it better, is it better, is it better again?
The voices come

Is it better, is it better, is it better?
The voices come...
