

# Voyager, Higher Existence

I step into a mind where mind is an illusion  
Subconscious colourful delusions  
Where I can master every action  
I need a positive reaction  
Dream of a nature of pure saturation and lie in a lake ever after  
Here in this time what is time what is mine?  
I forget! But it just doesn't matter!  
Come with me! To a place where no reason is reason  
Come with me! To a place where you can choose the season  
Take one look around - See what you've wanted to see  
Think away from your kind  
For the unknown is calling your name  
Touch beyond what you can feel  
Don't let anyone tell you what's real  
Come inside and be a part of the distance that beckons your mind  
And be a higher existence than you realise  
Just release your subconscious to tell you it's real  
This is a higher unconscience that's making it heal  
And you know that it's good for your soul  
To experience something unknown, so tell me  
This is not the end of time  
This is not the end of time  
This is not the end of time  
Can you feel it now?  
This is not the end of time  
This is not the end of time  
And you are calling to the wine..  
Feel it come  
Close the door  
Push towards  
Fear it more  
Let it take the worst of you, best of you and just throw it all away  
Come inside the dream that beckons  
Feel, release this consciousness  
What's the reason for this wisdom?  
Here's the answer .....
