

# VS, Love You Like Mad

Love you like mad!

When am with you girl  
Im down with anything  
I like the things that we do  
If you know what I mean

They way you turn me on  
To the early morn

When we're all alone  
We can make it right  
Its like that everyday and every night  
You touched my heart my body and soul

Ill be, everything that you want me to be  
Ill do, everything that you want me to do  
Ill say everything that you want me to say

I wana love you like this  
I wana love you like that  
I wana be your everything tonight  
I wana love you like mad

I wana love you like this  
I wana love you like that  
I wana be your everything tonight  
I wana love you like mad

When im with you boy  
Im down with anything  
I like the things that we do  
If you know what I mean

When you turn me on  
To the break of dawn

When we're all alone  
We can make it right  
Its like that everyday and every night  
You touched my heart my body and soul

Ill be, everything that you want me to be  
Ill do, everything that you want me to do  
Ill say everything that you want me to say

I wana love you like this  
I wana love you like that  
I wana be your everything tonight  
I wana love you like mad

I wana love you like this  
I wana love you like that  
I wana be your everything tonight  
I wana love you like mad
