

W.A.S.P., Teacher

Will ya let me learn you something
Oh I will, indoctrinate your mind
Wont ya let me be your love your mother
The greatest of all time
On your knees confession your obsession
I'll dominate you dark
I gave you hell to take you to heaven giving you
Star spangled hearts

In the time end oh you've learned nothing my brother
Teacher to your kind
Oh independence one (won) you nothing but a
Sudden death in overtime
Salute the flag's oppression your blessing
I got a bigger gun
Than all you fucking beggars all ya put together
I'm uncle Sammy's son

I will be your teacher baby
I will be your flame
Slide to reach you maybe
I won't know no shame

I will be your teacher preacher
On your knees and you pray
Father of your addiction, tell me
Am I the one that you'll blame
