

# Wailin' Jennys, Starlight

I have come back to you broken  
take me home  
And my body bears this trouble  
take me home  
Take me back to my beginning  
Before the hell of night set in  
And I came to this border  
take me home

I have toured the endless starlight  
take me home  
I have shattered under midnight  
take me home  
There are no vultures in this clearing  
Except the ones who brought me here  
And I'll no longer feed them  
take me home

Kingdom come, their will was done  
And now the earth is far away  
from any kind of heaven  
Hallowed be these frozen fields

And every single one of us  
still left in want of mercy  
Take us home

Now the bells stand still and hollow  
take me home  
And no one has come to mourn me  
take me home  
Find me where I close my eyes  
Beneath this sky of powerlines  
And let me see us clearly  
take me home

Kingdom come, their will was done  
And now the earth is far away  
from any kind of heaven  
Hallowed be these frozen fields  
And every single one of us  
Still left in want of mercy  
Take us home...
