

# Wakefield, Ground Zero

Don't worry about the time  
Just watch the sun set  
I keep my feelings bottles up  
About things that I regret  
Oh can it be up to me right now?  
Everything's so lovely in the sky right now  
I want to take it back  
But I don't know how  
Can you chase the rainbow?  
To find its tail  
Take me to your ground zero  
Back again  
I simply wish that I could  
Feel the way you do  
I just start again  
Standing next to you  
Gone overboard  
In the storm of hate  
Everything's so lovely in the sky right now  
I want to take it back  
But I don't know how  
Can you chase the rainbow?  
To find its tail  
Take me to your ground zero  
Back again
