Wakefield, Ground Zero

Don't worry about the time Just watch the sun set I keep my feelings bottles up About things that I regret Oh can it be up to me right now? Everything's so lovely in the sky right now I want to take it back But I don't know how Can you chase the rainbow? To find its tail Take me to your ground zero Back again I simply wish that I could Feel the way you do I just start again Standing next to you Gone overboard In the storm of hate Everything's so lovely in the sky right now I want to take it back But I don't know how Can you chase the rainbow? To find its tail Take me to your ground zero Back again
