

# Wall Of Voodoo, Tse Tse Fly

I was walking through the jungle, and I  
Was looking for good business  
Something to take away the risk  
Break or bust or call it quits  
See an object in the air  
See an object touch my hair  
I was walking through the jungle, and I  
Was looking for good business  
My energy is draining  
Touching down on my arm  
I'm feeling kinda sleepy now  
Chorus:  
I was bitten by a tse-tse fly  
I was bitten by a tse-tse fly

I was walking through the jungle, and I  
Was looking for good business  
Gotta invest in insect bombs  
No-pest strips and firearms  
On the tickertape came the note  
"Tse-tse fly: no antidote"  
I was walking through the jungle, and I  
Was looking for good business  
My energy is draining  
Touching down on my arm  
I'm feeling kinda sleepy now  
Chorus repeat x2  
Swat that fly!
