

Wallis Bird, You Are Mine

You wore your clothes in bed
And the stars came out from night
Sweet and soft in every respect
You whipped your arms around me
And you smiled
And all the strength in the world
Couldn't hold my tears that night
I held onto you like you were going away
And you just lay there you didn't even realise
My love I love you
Goodbye so long farwell
For a while goodbye
And when you come back
Will you look for me?
I'm serious
For I love you
And you are mine
Well I've never felt like this
I'm confused and?
Well I fell out with friends
But they stayed true
They misguidedly tell me
All I did was you
But you never let me know
Should you ever love me less
Ooh I hold onto you you're not going anywhere
And I just constantly tell you, you're the best
My love I love you
Goodbye so long farwell
For a while goodbye
And when you come back
Will you look for me?
I'm serious
For I love you
And you, you
My love I love you
Goodbye so long farwell
For a while goodbye
And when you come back
Will you marry me?
I'm serious
For I love you
And you are mine
