## Wallows, Especially You

Thinking 'bout what you just said Sleepless, now my eyes are red My head can't comprehend living in the background, wondering what you meant That's when my eyes got red Thinking 'bout what you just said Some things leave me confused but especially you

Can't get you off my mind Life's like a waste of time when you're not here to distract me from the things that I lack Save me Feel nothing when you're gone Wait, did that come out wrong? Don't know if I'll get it back Wondering how you'll react, baby

Thinking 'bout what you just said Sleepless, now my eyes are red My head can't comprehend living in the background, wondering what you meant That's when my eyes got red Thinking 'bout what you just said Some things leave me confused but especially you

Can't stop a mood that swings I'll read into anything I know that's not what you meant I got the wrong sentiment I tend to make a narrative Paste it and make it stick Decide the truth without facts Can you just help me relax?

Thinking 'bout what you just said Sleepless, now my eyes are red My head can't comprehend living in the background, wondering what you meant That's when my eyes got red Thinking 'bout what you just said Some things leave me confused but especially you
