

# Waltari, Dedicated To The Flyers

I wanna go jo-jo underground  
I wanna live for sight and sound  
I wanna move towards the flow  
Dont let me walk down  
Please, dont let me dry out  
Dont let me walk down  
I wanna spell your success:  
better to wind up yourself  
to a vague ball of experience  
Dont let me walk down  
Dont let me go down  
Hey baby let me fly high

Chorus:

I wanna dance  
I wanna dance electric

Better to really step outside  
Better to look for bright colours  
I wanna hear the metal sound!  
Youre not a dead body  
Like us, everybody  
Hey baby, gimme your noise!  
Chorus
