

# Waltari, Isolated

I'm tired of all these people, tired of all their lies  
As I said before  
They caught me again, 'coz I'm too blind  
To see what society is really kind: deaf, dumb, blind  
You know, they told me now it's time to make  
Your duty to your fatherland  
'Coz we're living in a &quot;welfare state&quot;, we'll gonna  
Give you a choice:  
You don't have to wear a gun (as long as it won't cause  
too much noise)

Then: They sent me to &quot;Paradise&quot;  
They thought I wouldn't realize  
That they just try to spoil us  
Then they'd finally get us

## CHORUS:

Ain't got no time to live, ou gotta follow me down  
Ain't got no chance to taste and let the real meanings out  
Ain't got no time to live, you gotta follow me down  
Ain't got no time to waste!

Here I'm just getting crazy  
How 'nice' society can be for me!  
They look away my own will  
Power vanished in the haze  
They try to make me a reliable member of society  
Bullshit!  
We're just the isolated!

Stuck inside these four walls  
Echoes of those Satan calls  
Here I'm going to get crazy  
Wasting my time away

## CHORUS

(Here I am, pasted on the wall  
Hmm, wall paper music
