

Waltari, One In The Line

(Every day, every day...)
I'd like to get out of this lunatic
thought
But as long as it is there, I wanna
get caught
I can't get any sleep
'cause I don't live a dream
Life is not a casualty
And that's just where I've been
Hitch-hiking away through these
mysterious days
I think we are the medal of the
previous 2 billion years
It's a flight out of time
And I have only a dime
It's real hard to imagine
That there's no time at all
Now I'll take my final step to the
unknown
Nothing can really stop me, 'cause
I'm on my own
Only thing I would like to take
with me is you
Yo, please come to me, take my
advice.
And I'll show you...
(... the mysterious part of life!!)
