

Waltham, All I Want Is You

I never thought I'd see the day
When I would choose to run away
Cuz your one and only would-be hero
Ended up to be a zero

It's fair to say that I was wrong

But I'd rather say it with a song
So everybody knows I mean it
I know they've already seen it

Sorry it was me that took so long....Yeah!

so now I know you're the one I want
I won't let nothin' get in the way
i never wanted to break your heart
So I'll make it up to you everyday

I found your letter on my ride
And I finally found out where you hide
Cuz everybody tried to tell us
Things that only make me jealous

It's fair to say that I was wrong
I'd rather say it with a song
So everybody knows I mean it (Knows I mean it)
I knkow they've already seen it (Already seen it)
Sorry it was me that took so long... Yeah!

So now I know you're the one I want
I won't let nothin' get in the way
I never wanted to break your heart
So I'll make it up to you everyday
So now I know you're the one I want
I had it all and it slipped away
I never wanted to break your heart
So I'll make it up to you everyday
