

Waltham, Hopeless

I feel like it's hopeless
Things I need to know
Clear my head and focus
Try and save the call

I'm strange and I'm worried
When I screw up what I say
And I play too important,
So I get out of her way

So I rule
Maybe she'll think I'm cool
But every time we hang it up this way
I want to get her back on the phone
I want to get her back on the phone

I lie and tell all girls I'm fine whenever I play
And I try to be open, but drown whenever I say
And I play too important,
So I get out of her way

But every time we hang it up this way
But every time we hang it up this way
I want to get her back on the phone
I want to get her back on the phone

I feel like it's hopeless
