

Waltham, Nicole

It's all right, they don't care
We'll be together cuz nobody but you
Is all right around here
I've been to heaven and nobody but you said it to me
That you've waited and
All I wanted to do is get you to stay
So wait'

And I'll write, and I'll sing
I'll be your everything
Nobody can do
And I'll fight til I win
I'll lose that heifer cuz
Nobody but you said it to me
That you've waited and
All I ever knew until today is

Nobody can get it, nobody can get it
Nobody can get it, nobody can get it
Nobody can get it at all

So tonight if I swear
We'll be together cuz nobody but you
Is in sight around here
I've been to heaven and nobody but you said it to me
That you've waited and
All I want to do is get you to stay, cuz

Nobody can get it, nobody can get it
Nobody can get it at all
Nobody can get it, nobody can get it
Nobody can get it at all

You don't have to fear that somewhere
You'll be out and seen with no one
You know that I'll be with you tonight

Cuz you've waited and
All I want to do is get you to stay
Cuz you've waited and
All I want to do is get you to stay
Cuz you've waited and
All I want to do is get you to stay, cuz

Nobody can get it, nobody can get it
Nobody can get it, nobody can get it
Nicole.
