

Wanda Jackson, Greatest Actor

I'm always right at inside when the circus comes to town
And I'm always front row sitter when the playhouse lights go down
And I see some fine performers get the most from every line
But honey you're the greatest actor of our time
Why I believe you cared for me that's how well you played your part
And later for an encore you broke my trusting heart
But I guess I should be grateful for the honor that was mine
I co-star with the greatest actor of our time
Why I believe you cared for me...
